

BH 3511

Seed Highlights

- Red Grain
- Early maturity hybrid with improved yield potential
- Improved disease tolerance
- Good choice for northern sorghum growing areas

Characteristics

Maturity Group	Early
Grain Color	Red
Head Type	Semi-Open
Average Plant Height	44-52"
Greenbug Tolerance	N/A
Average Seed/lb.	N/A
SCA Rating	Susceptible

Preliminary Disease Ratings

Exertion	2
Test Weight	3
Stress	2
Standability	3

1-9 rating, 1 = Excellent

All ratings presented represent relative differences between B-H Genetics® hybrids. This information is not intended for use in comparison with hybrids from other companies. Adverse environmental conditions, cultural practices, disease and insect pressure, can affect the relative accuracy of the ratings and product descriptions.

CAUTION:

Sorghum-Sudangrass and Sorghum products can develop prussic acid or elevated nitrate levels under certain conditions. Avoid single, heavy nitrogen applications, especially prior to or during drought periods. Do not graze very young plants, plants recovering from drought, or plants damaged by a frost or freeze.

This is a partial listing of B-H Genetics® products. Contact your B-H Sales Rep or your local B-H Dealer for information on additional products available from B-H Genetics®.
