XP 8704VIP3110

Agrisure Viptera 3110

LIBERTY LINK

Seed Highlights I 116-118 RM

- Above average test weight grain
- Attractive dark green plant color
- Good dual purpose potential
- Moderated plant size for western silage areas

Characteristics	
Ear Type	Semi-Determinate
Cob Color	Pink
Kernel Rows	14-16
Plant Height	Medium-Tall
Ear Placement	Medium-High
Test Weight	2
Stalk Strength	3
Root Strength	3
Early Vigor	3
Stress Tolerance	4

1-9 rating. 1 = Best

Preliminary Disease Ratings	
Northern Corn Leaf Blight	N/A
Southern Corn Leaf Blight	N/A
Grey Leaf Spot	N/A
Goss's Wilt	N/A

1-5 rating. 1 = Best

All ratings presented represent relative differences between B-H Genetics® hybrids. This information is not intended for use in comparison with hybrids from other companies. Adverse environmental conditions, cultural practices, disease and insect pressure, can affect the relative accuracy of the ratings and product descriptions.

This is a partial listing of B-H Genetics® products. Contact your B-H Sales Rep or your local B-H Dealer for information on additional products available from B-H Genetics®.

Agrisure Viptera® is a trademark of a Syngenta Group Company. Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control. LibertyLink®, Liberty® and the Water Droplet logo are registered trademarks of BASF.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.
