

BH 3520

CHEMICAL FREE

Seed Highlights

- Bronze Grain
- Above average early season stress rating
- Early maturity hybrid best used in high stress environments
- Above average sugarcane aphid tolerance rating

Characteristics

Maturity Group	Early
Grain Color	Bronze
Head Type	Semi-Open
Average Plant Height	46-52"
Greenbug Tolerance	N/A
Average Seed/lb.	14-16 K
SCA Rating	Tolerant

Preliminary Disease Ratings

Exertion	2
Test Weight	3
Stress	2
Standability	2

1-9 rating, 1 = Excellent

All ratings presented represent relative differences between B-H Genetics® hybrids. This information is not intended for use in comparison with hybrids from other companies. Adverse environmental conditions, cultural practices, disease and insect pressure, can affect the relative accuracy of the ratings and product descriptions.

CAUTION:

Sorghum-Sudangrass and Sorghum products can develop prussic acid or elevated nitrate levels under certain conditions. Avoid single, heavy nitrogen applications, especially prior to or during drought periods. Do not graze very young plants, plants recovering from drought, or plants damaged by a frost or freeze.

This is a partial listing of B-H Genetics® products. Contact your B-H Sales Rep or your local B-H Dealer for information on additional products available from B-H Genetics®.
